A new strategic tier for Sussex

Devolution is changing where important decisions are made.

The Sussex & Brighton Strategic Authority will shape long-term prosperity across areas including transport, housing, skills, environment, health and infrastructure.

Mayor to be elected May 2028

Why this matters now

The strategic framework is being built before the Mayor is elected.

So what is SCANN for?

A Sussex-wide network connecting climate and nature groups, connecting with community voices.

Our value: bringing practical local knowledge into Sussex-wide decisions — and helping organisations act together.

Five asks for a resilient Sussex

Climate, nature and people at the heart of prosperity.

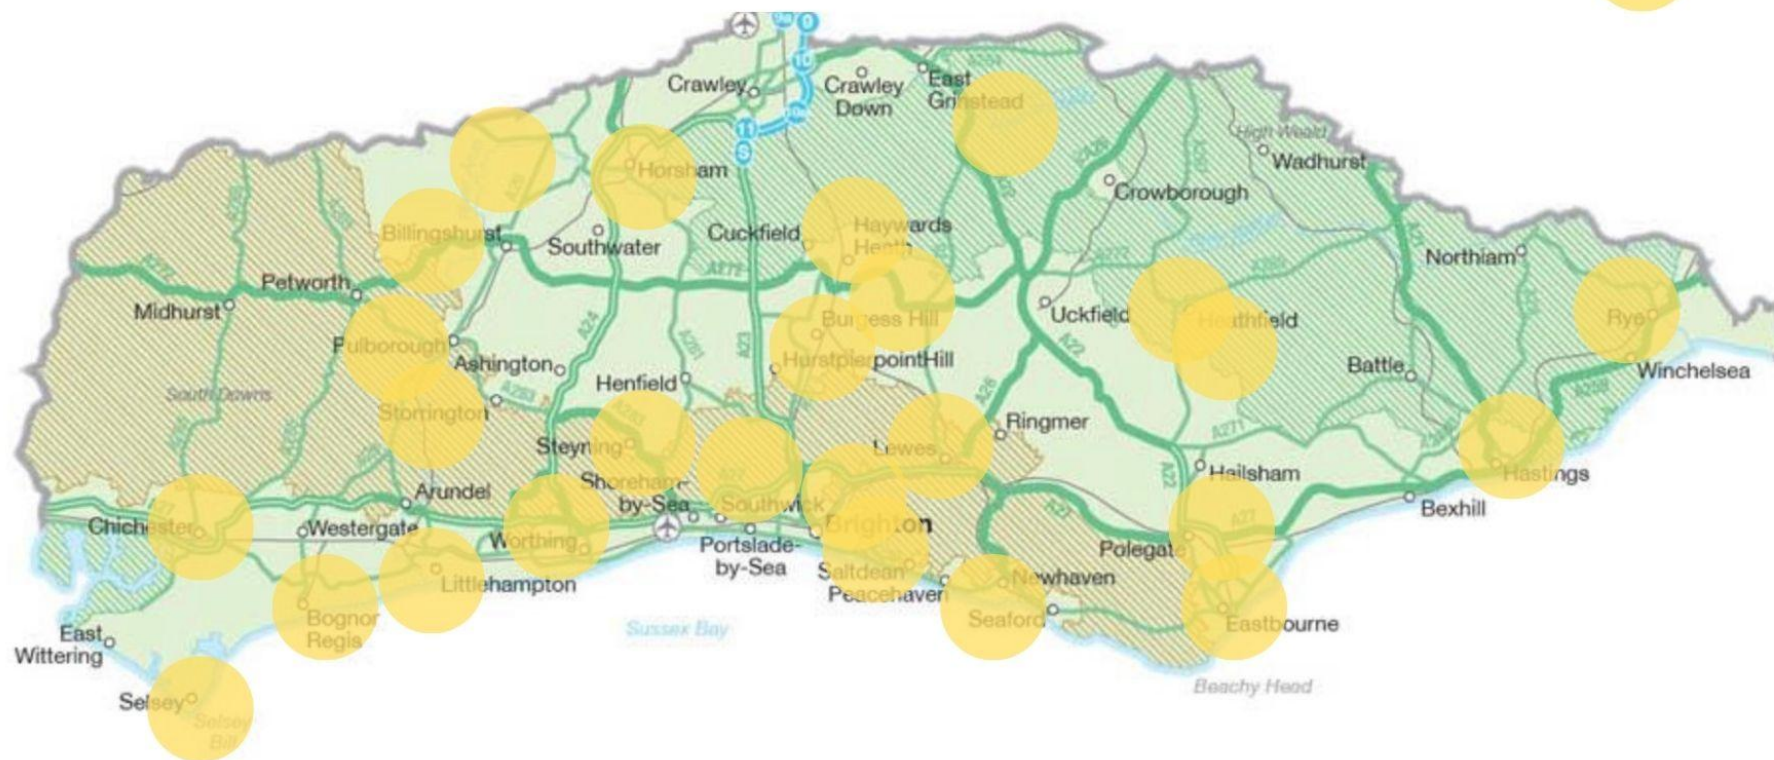

- 1 Lead for resilience** Embed climate and nature across strategy and investment.
- 2 Build a resilient economy** Good jobs, skills, clean energy and resource security.
- 3 Create resilient places** Housing, transport and infrastructure fit for a changing climate.
- 4 Treat nature as infrastructure** Restore the ecosystems that underpin water, food, health and resilience.
- 5 Put communities at the centre** Make local people and civil society partners in delivery.

What joining the network makes possible

SCANN is stronger when Sussex's local knowledge is connected.
